Q: How to have a managed bean accepted in a managed bean by a Java EE framework? I am using JSF 2.0 with Richfaces 4.0 and I have a List component that uses a managed bean as a ListStore. My ListComponent is for selecting a single page of a managed bean, so it has an argument for the index of the index of the bean (List[Integer] index). The problem is, it seems to be impossible for the JSF framework to accept this as an argument.
