ANN: ■I play a male protagonist. ■In the west of the Lands Between, including the areas around the human settlement of Sindac and eastern Elf and Yokai region. ■I am a knight (almost a doctor) who specializes in health magic. ■My height is 180 cm, weight 87 kg, and I take care of my appearance. ■I don't have any exceptionally strong points. My technique is awkward and I am less powerful than others. ■The main way to win is to gain experience. ■Animated character is difficult. ■I can do the chest-strength maintenance, but the strength of the general part becomes weak. The reason is that I cannot increase the level of magic power. ■The main feature is continuous motion. ■I make use of different methods to attack. ■I can deal damage to enemies by attacking their shins. ■Since I have health magic, if I am attacked, I will be healed. ■If I'm

attacked, I'll have to maintain health magic. ■ I will not be killed, if I'm attacked by a monster. ■ I can save people who are attacking me. ■ While saving someone, I will not be injured. ■ By saving others, I can gain a lot of experience. ■ You can't say I was careless, because I made a conscious effort to save people. ■ My greatest weakness is that I am wasteful. ■ I shouldn't say that it is a flaw, because I think it is a good thing. ■ My specialty is healing. If you take care of the health of others, I will gradually get stronger. ■ I should not regard my weakness as a flaw, so I have constantly been using

ARENA: A huge arena where players fight to the death for a prize in the game...!

PHYSICAL DAMAGE SYSTEM: A new

system which increases the amount of damage you receive the more you hit your opponent. RACE: Race manipulation, which allows you to change the characteristics of your character...! MULTIPLAYER: Enjoy a fun online battle with other players...! A lot of people throughout the country and world make healthy eating decisions based on convenience. But the common misconception is that you can eat a lot of bad foods because they are not processed or packaged. The truth is that even if you eat food from a fast food chain, processed or packaged food, such as peanut butter, for example, you are still making bad food decisions. The fact is that what you consume affects you on a cellular level. Processed or packaged foods contain certain chemicals that can do a great deal of damage to your health. For example, is your favorite brand of peanut butter made from peanuts? Most

of the time, these are cracked open and spread upon a cracker, or made in a food processor. If your favorite snack food is peanut butter, chances are you are eating a lot of refined carbohydrates. When you eat refined carbohydrates, you often experience insulin spikes. When insulin spikes, it leads to what is known as “the insulin response”, which is the growth of fat cells. Over time, refined carbohydrates can lead to obesity. Are you eating fried foods? If so, you may be eating too much of these foods. Consumption of fried foods can result in high levels of cholesterol. In addition to that, they can lead to abnormal heart rhythm and plaque build up on your blood vessels. You can get an idea of your risk of heart disease by looking at what food makes up your intake. If fried foods make up a large percentage of your daily intake, there’s a high chance that you’re eating too much of the wrong foods. So

next time you're eating something that makes you feel satisfied, think about what you're really eating. Are you eating too much fried foods or processed foods? You will probably find that you are. So think about the foods that you eat and ask yourself if you need to make an adjustment. When it comes to the food you put into your body, you should consider making adjustments to avoid putting too much bad food into your body. Warning: str

What's new in Elden Ring:

Based on your development and exploration progress over time, you can befriend with, invest on, and switch to other characters from the same and other groups.

If that is not enough, there are many events where you can receive helpful items for your character!

This is about to change, with a new update next week! We are pleased to announce that [Teal Crowther - Lead Artist] will join us personally for a crowdfunding campaign for the game's original graphic novel; The Abyss.

We are happy that [Teal Crowther] who is a very busy graphic artist with a customer in Europe has agreed to come here and shared his talent for MOM! This will take about 3 days to finish the project; and will be available for backers if you request that it be delivered.

Teal's passion for the project's concept and his live illustrations is also rubbing off on the other artists!

With your support, we'll have this graphic novel ready for you to benefit from. This also includes an expanded graphic novel set, with an integrated soundtrack on CD, you can expect some great bonus goodies.
