current expansion, **World of Warcraft: Legion**. The action RPG genre has recently began to see a ton of titles, and with relatively strong titles, like **SWORD ART ONLINE**, **EXTELLA: THE ESCAPE**, and **LIVE UNIVERSE**, it would be a shame to not give credit to these titles for their tips on what works and what does not in action RPGs. This title has a few flaws that put it at the very bottom of the heap of titles in the genre. First, one of the main drawables of the RPG genre is a quest system that tells you what to do next and how to do it. This is common to fantasy RPGs such as the **Final Fantasy** series, and the **Legend of Heroes**, but in titles like **Ragnarok Online**, **SWORD ART ONLINE**, **EXTELLA: THE ESCAPE**, and **LIVE UNIVERSE**, this feature is not present. Second, unlike the titles mentioned above, the story is very thin and just consists of setting up the basic premise of the game. Only after the basic level does the story begin, so this title requires you to spend about the same amount of money on your game. Lastly, the end game is not a cooperative mode, but a co-op AI that will attack you at times. While they may give you the option to fight them in co

### **What's new:**

#### **PLAY LIKE YOU ARE THE LORD OF THE LAND**

Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between.

#### **A VAST WORLD FULL OF EXCITEMENT**

A vast world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment.

#### **CREATE YOUR OWN CHARACTER**

In addition to customizing the appearance of your character, you can freely combine the weapons, armor, and magic that you equip. You

**can develop your character according to your play style, such as increasing your muscle strength to become a strong warrior, or mastering magic.**

## **AN EPIC DRAMA BORN FROM A MYTH**

**A multilayered story told in fragments. An epic drama in which the various thoughts of the characters intersect in the Lands Between.**

## **UNIQUE ONLINE PLAY THAT LOSES YOU TO OTHERS**

**In addition to multiplayer, where you can directly connect with other players and travel together, the game supports a unique asynchronous online element that allows you to feel the presence of others.**

**Take down your enemy with a massive flurry of magic and engage in all-out battle in the Orc's War.**

## **ORG Pledis GameLab**

**By the Online Variant called GlADOS, OrgPleADIs GameLab is a place where worldwide players can enjoy this game.**

## **LOOT BOX**

**In the Lurker's Code, we are opening your own personal Loot Box. Open it at your own risk!**

**Players are allowed to play with non-Lurker's Code characters on the Adventurer Mode and PvP Area/Battle.**

**Players are not allowed to play in other modes than Adventurer mode and PvP mode on PvE servers/Maps unless they have a Lurker's Code.**

**The Vectorette** The Vectorette is the fifth studio album by the San Francisco band V/A. The album was released in October 2010 through Fearless Records. Track listing Personnel Jack Mary - vocals Dave Doubilet - guitar, vocals John Sankey - bass Chad Taylor - drums References Category:2010 albums Category:Fearless Records albums Category:V/A (band) albumsQ: Binding onClick to dynamically created elements on.click() I have a function which accepts a div and a class of 'class-name' and iterates over a collection of similar divs. Each div has a div inside it, and inside of this div there is a button, which will have a class of 'class-name'. I'm trying to execute a function upon the click of each button with the class 'class-name'. These div's are being created at runtime, inside of a foreach loop in a different.js file. It works fine for the first time, but for the second click, it doesn't seem to find the function, or I'm not calling it correctly. I'm using: `$(document.body).on('click', '[class^=class-name]', function() { functionName(); });` The corresponding HTML: Delete I've tried: `console.log($('.delete-element')); $(document.body).on('click', '[class^=delete-element]', function() { console.log('yep');`

2013-12-23T00:20:31+01:00VirtuaR Ver 3.0.1 This  
is a release for VirtuaR Ver 3.0.1 with some bug  
fixes, no feature addition, just updating.

VirtuaR Ver 3.0.1changelog  
2013-12-18

Added a plus button for the character blocks.

2013-12-20

Fixed a bug where you could keep records  
overlapping in the stats screen when you use a  
dynamic record.

2013-12-25

Fixed so that when save the training record in the  
training screen, it saves the pointer to where the  
record was at, and not where it is currently at, now  
it saves it to where the save point was at.

2013-12-25

Fixed a bug in the waiting screen when you try to use  
a specific record that is not in your block library that  
shows a second selection screen, and now displays it  
correctly in the save/load.

2013-12-26

Fixed a bug where you get yourself stuck in random
